### **DETAILED ACTION**

1. Claims 1-7 are in the application.

#### ***Claim Objections***

Claims 4-7 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim should not depend from other multiple dependent claims. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.

#### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Steinberg (3,373,710).

Steinberg discloses a vessel with a single hull including a foil 31 extending below the waterline and transversely to the longitudinal axis of the hull. The foil is located at a distance below the hull and over a breadth comprising at least half of the breadth of the hull. The distance of the foil from the hull is substantially constant over the entire breadth of the foil; the foil has portions 32 extending to the waterline.

#### ***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Slocum (1,549,564), Almqvist et al (2,597,048), Vertens (2,767,678), Bader et al

Art Unit: 3617

(2,991,747), Johnson (3,006,307), and Erlykin et al (3,693,570) disclose marine vessels with hydrofoils.
